

Mirkovic Electric

Modern Electrical & Infrastructure Solutions

Licensed Bay Area Electrical Contractor specializing in EV charging, load management, smart panels, utility coordination, and high-performance audio systems.

Electrical Work Designed for Today's High-Demand Homes

Homes today require more than basic electrical service. EV chargers, heat pumps, solar, smart panels, and networked systems demand careful planning, code compliance, and coordination with utilities.

Core Services

EV Charging & Load Management

Tesla and universal EV chargers, dynamic load management, service capacity evaluation.

Smart Electrical Panels & Energy Monitoring

SPAN smart panels, circuit-level monitoring, EV and solar integration.

Permits & PG&E; Coordination

Permit applications, PG&E; service coordination, load calculations, inspections.

Panel Upgrades & Electrical Infrastructure

Main panels, sub-panels, service relocations, remodel support.

Audiophile Audio Systems

Reference-grade speaker wiring, bit-perfect multi-room audio, custom endpoints.

Why Work With Mirkovic Electric
