

## **Mirkovic Electric**

### **Modern Electrical Solutions for Today's High-Demand Properties**

Licensed Bay Area Electrical Contractor specializing in EV charging, load management, smart panels, utility coordination, and high-performance audio systems.

**Call or Text:** (408) 900-2672

### **Electrical Work Designed for Today's High-Demand Properties**

Homes, commercial spaces, and mixed-use properties require more than basic electrical service. EV chargers, heat pumps, solar, smart panels, and networked systems demand careful planning, code compliance, and coordination with utilities.

## **Core Services**

### **EV Charging & Load Management**

Tesla and universal EV chargers, dynamic load management, service capacity evaluation and optimization.

### **Smart Electrical Panels & Energy Monitoring**

SPAN smart panels, circuit-level monitoring, EV, solar, and battery integration.

### **Permits & PG&E; Coordination**

Permit applications, PG&E; service coordination, load calculations, and inspection support.

### **Panel Upgrades & Electrical Infrastructure**

Main panels, sub-panels, service relocations, dedicated circuits, remodel and addition support.

### **Audiophile Audio Systems**

Reference-grade speaker wiring, bit-perfect multi-room audio endpoints, wired and wireless network design, and custom system planning.

### **Why Work With Mirkovic Electric**

Licensed California C-10 Electrical Contractor (#627414). Design-driven approach, Bay Area permitting experience, and professional workmanship.

### **Service Areas**

Serving San Jose, Palo Alto, Menlo Park, Cupertino, San Mateo, and the greater Bay Area.
